

Md Sydul Amin

178/g, Hazaribagh, Dhaka 1209 • +8801641879498 • sydulamin6@gmail.com

Full Stack developer with 2+ years of experience in Python and Django, mentoring aspiring developers in clean coding, scalable API design, and DevOps best practices. Skilled in ReactJS with Tailwind CSS for full-stack development. Passionate about guiding learners and building efficient, production-ready systems.

Experience

2022 – PRESENT

Jr Python Developer & Mentor | Creative Business Group | Dhaka, Bangladesh

As a Jr. Python Developer & Mentor at Creative Business Group in Dhaka, I primarily guide and mentor aspiring developers in Python and Django, focusing on real-world application development, REST API design, and backend best practices. I support students in understanding MVC architecture, ORM, and deployment techniques. Alongside mentoring, I contribute to internal projects by building and maintaining Django-based systems, ensuring scalable and maintainable code. My role bridges learning and development by combining hands-on coding sessions, code reviews, and one-on-one guidance to help trainees become confident, job-ready backend developers.

Skills

- Python • Django/Django Rest Framework • JavaScript • ReactJS • HTML, CSS • Tailwind CSS • Bootstrap
- Docker • Git & GitHub • CI/CD Pipelines • Nginx • Shell scripting • PostgreSQL, MySQL • Linux • AWS

Education

MAY 2019

Bachelor of Computer Science Engineering | Northern University Bangladesh | Dhaka, Bangladesh
